Quiz Title

Show all your work. Answers without work may not earn full marks.

K ____ / 4 A ____ / 3 T ____ / 5

_____ / K 4 **1.** Solve each equation.

a) $x + 5 = 12$

b) $3x = 18$

_____ / A 3 **2.** A taxi charges $4 plus $2 for each kilometre. How far can you ride for $20?

_____ / T 5 **3.** A garden bed is a rectangle. Its width is w metres. Its length is 3 m more than its width.

a) Write the area of the bed as an expression in w. Write the expression in factored form, then in expanded form.

b) The area of the bed is 40 square metres. Write an equation for the width and solve the equation. Then say which solution is the width of the bed, and why.

c) The length of the bed is 3 m more than its width. Use the width from part b to find the length of the bed, and write the length on the line. _____

_____ / A 2 **4.** Two dice are rolled. How many outcomes are there? Explain how you counted them.
